The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence.**
This recognition proves that VHIR endorses the general principles of **the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.
Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Vall d'Hebron Institut de Recerca

Vall d'Hebron Barcelona Hospital Campus

Laboratory Technician
Group of Molecular Oncology / Group of Biomedical Research in Digestive Tract Tumors

We are currently seeking a highly motivated Laboratory Technician to join the Group of Molecular Oncology / Group of Biomedical Research in Digestive Tract Tumors. The contract will be established with Vall Hebron Institute of Research (VHIR) but the work will be carried out at the Lleida Institute for Biomedical Research (IRBLleida: http://bit.ly/molonco).

The successful candidate will work on several projects using a variety of cell and molecular techniques with cell line systems, animal models and large cohorts of human primary tumors.

JOB DESCRIPTION

Education and qualifications:

Required:

- Hold a Laboratory Technician degree (FP2 / BA-BS Technician or equivalent)

Experience and knowledge:

Required:

- Previous and creditable experience in a research laboratory (at least 2 years).
- Hold the accreditation to handle laboratory animals and experience with mouse models.
- Have experience in the field of cancer research.
- Have experience with techniques of molecular/cellular biology.
- Experience with histology techniques (paraffin embedding, microtome section and immunohistochemistry.
- Team-work as well as independence abilities.
- Strong sense of responsibility, organization, initiative and self-motivation.

Desired:

- Good communication skills and fluency in written and spoken English

Main responsibilities and duties:

- Monitoring and maintenance of transgenic mice colonies.
- Performing full experiments with cell lines.
- Processing, inclusion and tissue staining for histological analysis.
- Maintenance of the reagent's stocks and consumables in the laboratory, as well as processing new orders.

Labour conditions:

- One-year full-time contract
- Starting 30th August 2021.
- Gross annual salary 20,500 euros/year

What can we offer?

- Skilful and social colleagues in a dynamic environment.
- Challenging tasks and a wide range of responsibilities.
- Personal training opportunities.
- Semi-Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program

How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter with the reference CV´s Lab.Technician to the following email addresses: molecular.oncology@irblleida.cat and (seleccio@vhir.org) .
