

AGREEMENT ON THE NEED, SUITABILITY AND SHORTFALL IN RESOURCES OF THE TENDER FILE OF THE CONTRACT FOR THE DELIVERY OF AN IN VIVO ULTRASOUND IMAGING DEVICE FOR THE PRECLINICAL IMAGING PLATFORM OF VALL D'HEBRON INSTITUTE OF RESEARCH (VHIR).

2020-031 IN VIVO ULTRASOUND EQUIPMENT

Dr Juan Antonio Cámara Serrano, Head of Preclinical Imaging Platform of the Fundació Hospital Universitari Vall d'Hebron- Institut de Recerca, has proposed a tender file for the providing of an in vivo ultrasound imaging system that will be incorporated into the Preclinical Imaging Platform, located at Cellex building, in the Vall d'Hebron Campus.

The mandate of the Board of Trustees and the Board of Directors of the VHIR is to ensure the continuity and correct development of projects entrusted to this entity, seeking to find formulas to optimise internal functioning and management.

Based on the requirements of the Preclinical Imaging Platform, it is necessary to highlight the fact that the contracting of the aforementioned providing of an in vivo ultrasound imaging system is a necessity.

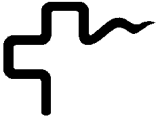

In this regard, in order to avoid affecting the aforementioned project throughout its duration and ensuring its continuity and optimisation based on the specific and ever-changing requirements of the pursuit of excellence sector, it has been decided to contract the equipment, seeking the best value for money.

The provision of the equipment is expected to delivery and installation of the system aim of this tender will be carried out in a maximum time of 6 months from the order fulfillment. In this way, order could be completed since the next day after the formalization of the contract resulted from the present tender. Both shipping and installation costs of the device should be included into the complete amount of this tender.

The maximum approved budget for the tender for the provision of the aforementioned tender is ONE HUNDRED AND EIGHT THOUSAND THREE HUNDRED AND NINETY EUROS" (108.390,00€) without VAT.

The non-division of the purpose into allotments is justified by the purpose of the provision itself as; failing that, the execution of the contract would become excessively difficult from a technical point of view, with a high risk of harming the proper execution of the project.

In view of the need to carry out an open procedure with ordinary processing and non-harmonised regulations as per the criteria of Law 9/2017, of 8 November, on Public Sector Contracting, whereby Directives of the European Parliament and of the Council 2014/23/EU and 2014/24/EU, of 26 February 2014, are transposed into Spanish law.

In view of all of the above,

IT IS HEREBY DECIDED:

- 1.- To order the opening of the tender file for the providing of an in vivo ultrasound imaging system that will be incorporated into the Preclinical Imaging Platform, located at Cellex building, in the Vall d'Hebron Campus, the maximum budget for the tender being set at € 108.390, without VAT.
- 2.- To order the certification of the existence of sufficient credit to certify that the VHIR has a sufficient budgetary endowment to face the expenses arising from this tender file.
- 3.- To draft the Specific Administrative Bidding Conditions and Technical Specifications in accordance with the provisions of the aforementioned Law.

Barcelona, on the 19th of May 2020
