

Grup de Recerca en: FISIOPATOLOGÍA RENAL. CIBBIM-Nanomedicina

POST-DOCTORAL SARA BORRELL PROGRAM CONTRACTS

We are currently looking for a highly motivated candidate to apply for a post-doctoral research position funded by the Sara Borrell Program of the Spanish Government (http://www.isciii.es/ISCIII/es/contenidos/fd-investigacion/fd-financiacion/fd-convocatorias-ayudas-accion-estrategica-salud/fd-guiasayuda/GUIA_AYUDA_SARA_BORRELL_2012.pdf).

The successful candidate will be working in a project focused on kidney pathophysiology, sex hormones and the metabolic syndrome, using genetically modified mice and cell lines, for translational transfer to human clinical research

CANDIDATE REQUIREMENTS:

- Legal Spanish residency, at the time of application (candidates can be from EU and non EU countries)
- Ph.D. title obtained after 1 of January 2009 except in justified instances (see call)
- Great record of publications in the topic-related fields.

WE OFFER:

- Salary: 27.000 Euros per year.
- Six to nine months stage in a foreign lab.
- Free-thinking, open, academic and stimulating environment.

The successful candidate will join the Group of Fisiopatología Renal at Vall d'Hebron Institute de Recerca (VHIR).CIBBIM-nanomedicine in the first half of 2013.
