

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of **the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Post-doctoral Researcher

Renal Pathophysiology Research Group

We are looking for a post-doctoral researcher with expertise in molecular and cellular biology, as well as in handling of laboratory animals, to work on a project related to the impact of HAVRC1 / KIM-1 in the development and progression of kidney cancer. [Here](#) you can find more information about our group.
