

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of **the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Graduate Nurse Shock, Resuscitation and Organic Dysfunction Research Group

The research group in Shock, Resuscitation and Organic Dysfunction is looking for a nurse to support the care activity of clinical trials that are currently being carried out in the group. The objective of the group is the integrated and innovative research in the areas of shock, organ dysfunction, resuscitation and the critically ill patient monitoring. In these areas, the group has a particular interest in the application of artificial intelligence to obtain innovative solutions to critical ill patients.
