

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Clinical Research

Epilepsy Unit

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence around the world.

VHIR offers vacancy/vacant position for a **“Clinical Researcher”** within the **Spine Research Unit** (Unitat de Recerca de la Columna Vertebral) to work on the research study: “Estudio prospectivo, aleatorizado comparando la fusión espinal en pacientes afectos de patología degenerativa del raquis lumbar, utilizando células mesenquimales autólogas inmovilizadas en partículas de hueso humano, respecto al injerto autólogo de cresta iliaca del propio paciente.”

More information about our group can be found here → <http://www.vhir.org/portal1/grup-equip.asp?s=recerca&contentid=187108&t=Unitat%20de%20Recerca%20de%20la%20Columna%20Vertebral>
