

## Research technician – Group of Biomedical Research in Urology

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence around the world.

VHIR seek a vacancy/vacant position for a **Research Technician** within the **Group of Biomedical Research in Urology** through the Program **Ayudas para la promoción de empleo joven e implantación de la garantía juvenil en I+D+I from MINECO**. The successful candidate will take a two-year position funded by the Spanish Government and the European Union ([https://www.sepe.es/contenidos/garantia\\_juvenil/index.html](https://www.sepe.es/contenidos/garantia_juvenil/index.html)) specific for young researchers.

More information about our group can be found here:
