

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Pre-doctoral Researcher to submit a fellowship application Exocrine Pancreas Research Unit

The Vall d'Hebron Research Institute (VHIR) offers vacancy/vacant position for a PhD student in the Group of Physiology and Pathophysiology of the Digestive Tract - Exocrine Pancreas Research Unit **to apply for a fellowship application (P-FIS contract)**. The pre-doctoral researcher will work in an interdisciplinary biomedical environment in the project "Enhanced fibroinflammatory phenotype of pancreatic stellate cells devoid of CFTR. Correction by autophagy modulators" funded by the Instituto de Salud Carlos III (PI18/00511)
