

Vall d'Hebron Research Institute promotes research and biosanitary innovation. Its aim is to find and to apply solutions to people's health problems. VHIR takes a chance on disruptive research based on daily health problems arising from the hospital, with an international outlook. We transfer to society the knowledge developed in our research lines and we are one worldwide reference in clinical trials.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of **the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**. Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**
