

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the Vall d'Hebron Research Institute (VHIR) obtained the recognition of the European Commission HR Excellence.
This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code).

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and candidates with disabilities are strongly encouraged to apply.

Postdoctoral Researcher

Translational Molecular Pathology Research Group

VHIR offers a position for a postdoc within the Translational Molecular Pathology Group. More information about our group can be found here: http://www.vhir.org/portal1/grup-presentacio.asp?s=recerca&contentid=186724&idrefer=186726

JOB DESCRIPTION

Education and qualifications:

Required:

PhD in the area of biomedical sciences

Experience and knowledge:

Required:

- Experience in a research laboratory
- Extensive knowledge in the area of tumor biology and cell signaling.
- Experience in cell and molecular biology.
- Knowledge in bioinformatics.
- Ability to direct and coordinate pre-doctoral students, master's students and laboratory technicians.

Main responsibilities and duties:

- Run his/her own project.
- Lead research projects of the group, co-directing the doctoral and master theses.
- Be the manager of the laboratory and in charge of the presentation of projects and memories of the research group.

Labour conditions:

Full-time position.

Start: 11.10.2020.

Length of the contract: 1 year.

■ Gross annual salary: 29.664,61 euros.
