

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

EEG technician

Epilepsy Group

The Epilepsy Group is a multidisciplinary clinical research team that collaborates in the development of new treatments through participation in clinical trials and clinical research projects to improve the quality of life of patients with epilepsy.

The Epilepsy Group wants to incorporate to its team an electroencephalogram (EEG) technician for performing tasks related to different projects of the group. More information about our group can be found here: <http://www.vhir.org/portal1/grup-presentacio.asp?s=recerca&contentid=215781&idrefer=215783>
