

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**. Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Postdoctoral Researcher/Research Assistant Cell Cycle and Cancer (Biomedical Research in Urology) Research Group

We are currently seeking a highly motivated **postdoctoral researcher/research assistant** to join the Cell Cycle and Cancer (BRG-U) Research group. The Project(s) will involve the use of a variety of cell/molecular biology techniques including in vitro systems, animal models and large tumor collections to investigate the role of key mitotic regulators (kinases, kinesins, ubiquitin ligases) and their potential as therapeutic targets mainly in prostate cancer (but not limited to). More information about our group can be found [here](#).

JOB DESCRIPTION

Education and qualifications:

Required:

- PhD in the area of biomedical sciences.

Experience and knowledge:

Required:

- Have significant experience in the field of cancer research.
- Have at least one original publication as a first author in a peer reviewed journal.
- Team-work as well as independence abilities

Desired:

- Predoctoral/postdoctoral experience in international research organizations
- Student direction (PhD, Master, BSc)
- Good communication skills and fluency in written and spoken english
- Experience working with animal models
- Strong sense of responsibility, organization, initiative and self-motivation.

Labour conditions:

The successful candidate will be employed under a full-time contract starting as soon as possible. Funding is available initially for 1 year-18 months, but ideally she/he should be competitive to apply for postdoctoral fellowships. The salary will be commensurate according to experience and qualifications (21.500-35.000€/year, gross salary). Gender equity is guaranteed.

What can we offer?

- Skillful and social colleagues in a dynamic environment.
- Challenging tasks and a wide range of responsibilities.
- Personal training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program (including dining checks, health insurance, transportation and more).
- Annual teambuilding events.

How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter with the reference “**Post-doc position**” to the following email addresses: anna.santamaria@vhir.org and (seleccio@vhir.org) .
