

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of **the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

## Nurse researcher

### HIV/STI group integrated in the Research Area of Infectious Diseases

The HIV/STI Group is a multidisciplinary research team that collaborates in the development of new treatments for HIV through participation in clinical trials and basic research projects to improve the quality of life of patients with HIV infection.

We offer a vacant position for a nurse researcher in order to perform tasks related to the different clinical trials of the group.

#### JOB DESCRIPTION

- A good computer literacy level; especially an advanced level in MS office.
- Database management

**Skills:**

- Methodical and well-organized
- High motivation and initiative
- Good communication skills

**Main responsibilities and duties:**

- Information to potential participants in clinical trials
- Selection, inclusion and follow-up of patients in clinical trials
- Collect blood and other biological samples of patients participating in clinical trials
- Handling (centrifuge, freeze delivery to central laboratories) of the biological samples
- Participation in the meetings and activities of the Research Group in HIV infection
- Data management activities, data collection and data entry
- Quality control of the cohort databases, answering queries

**Labour conditions:**

- Full-time position (40h/week).
- Starting date: May 2021
- Length of the contract: 1 year (extendable up to the end of the project)
- Gross annual salary: 24.500€ (the first year)

**What can we offer?**

- Skillful and social colleagues in a dynamic environment.
- Challenging tasks and a wide range of responsibilities.
- Personal training opportunities.

- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program (including dining checks, health insurance, transportation and more).
- Annual teambuilding events.

## HOW TO APPLY

Applicants should submit a full Curriculum Vitae and a cover letter with the reference "HIV/STI clinical research" to the following email addresses: [vfalco@vhebron.net](mailto:vfalco@vhebron.net) and [seleccio@vhir.org](mailto:seleccio@vhir.org).
