

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Study coordinator / Data manager Infectious Diseases Group

The HIV/STI Group is a multidisciplinary research team that collaborates in the development of new treatments for HIV through participation in clinical trials and basic research projects to improve the quality of life of patients with HIV infection.

We offer a vacant position for a data manager and study coordinator of the clinical research projects within the HIV/STI group.
