

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

## Research Assistant Biomedical research in gynecology Group

VHIR seek a vacancy/vacant position for a Research Assistant within the Group of Biomedical Research in Gynecology with the aim to include this person in the team and apply for the iPFIS grant together with the company MiMARK diagnostics, S.L., a spin-off company that develops biomedical research to discover new biomarkers for Women's Health.

More information about our group and MiMARK can be found here:
