

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

PhD position in Translational Molecular Pathology

VHIR offers vacancy/vacant position for a PhD student within the Translational Molecular Pathology Research group

JOB DESCRIPTION: PhD position to work on the use MNK inhibitors in cancer.

Education and qualifications:

Master degree in the area of biomedical sciences.

Experience and knowledge:

Required:

- Excellent knowledge of cell and molecular biology
- Good communication skills and fluency in written and spoken English.
- Strong sense of responsibility, organization, initiative and self-motivation.
- Good marks/qualifications

Desired:
