

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**. Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

## Research Technician Neuroimmunology Research Group

The Vall d'Hebron Research Institute (VHIR) offers a vacant position for a Research Technician within the Clinical Neuroimmunology group / Centre d'Esclerosi Múltiple de Catalunya (Cemcat).

More information about our group can be found here: (<http://www.vhir.org/portal1/grup-equip.asp?t=neuroimmunologia-clinica&s=recerca&contentid=186888>) and <https://www.cem-cat.org/es>.

### JOB DESCRIPTION

#### Education and qualifications:

##### Required:

- Technical degree (FP II or similar) or BsC in the field of biosciences.

#### Experience and knowledge:

##### Required:

- Experience in common immunology and molecular biology techniques such as ELISA, PCR, flow cytometry, cell culture, immunohistochemistry, etc.
- Fluency in Spanish and English.
- Proficiency in Microsoft Office (Excel, Word, etc.) and analysis software (graphPad, SPSS, software for flow cytometry)
- Strong sense of responsibility, initiative, self-motivation and team work abilities

##### Desired:

- It will be positively valued to possess the title of the "Training course for research personnel using experimental animals" or to accredit experience in working with experimental animals.
- Experience in sample processing and cell culture

### Main responsibilities and duties:

- The candidate will be in charge of the SIMOA HD-1 instrument to perform digital ELISA assays.
- Manage clinical samples and laboratory material.
- Handling, processing and storage of biological samples and associated data.
- Experimental support to investigators.
- Others: learning and performing all the techniques routinely performed in the group.

### Labour conditions:

- Full-time position: (40h/week).
- Start: July 1st 2021.
- Length of the contract: 1-year with the possibility of a contract renewal every year.
- Gross annual salary: 18.589,05 €.

### What can we offer?

- Skilful and social colleagues in a dynamic environment.
- Challenging tasks and a wide range of responsibilities.
- Personal training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Annual teambuilding events

### How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter with the reference: "Technician-Neuroimmunology Lab" before 15/06/2021 to the following email addresses: [nicolas.fissolo@vhir.org](mailto:nicolas.fissolo@vhir.org) and [seleccio@vhir.org](mailto:seleccio@vhir.org).
