

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

Clinical Trial Study Coordinator Multiple Sclerosis Centre of Catalonia-VHIR

VHIR offers vacancy/vacant position for a coordination of clinical trials within the Neuroimmunology research group - Multiple Sclerosis (MS) Centre of Catalonia.

The main objectives of the Clinical Neuroimmunology Group through research are to improve the quality of life of multiple sclerosis (MS) patients and attain a greater understanding of the pathogenic mechanisms, aiming to develop new and more effective therapeutic means. Other interests in research are: therapeutic tools in MS; disease susceptibility, diagnostic and prognostic markers in MS; study of the response to treatment in MS patients; clinical and radiological study of primary-progressive MS; epidemiology of MS; and patient-oriented outcomes.

More information about our group can be found here (www.cem-cat.org)
