

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Postdoctoral

Nephrology and Renal Transplant Research Group

We are currently seeking for a Postdoctoral position in Transplant Immunology at the VHIR Nephrology and Transplantation Laboratory in Barcelona.

JOB DESCRIPTION

Education and qualifications:

Innovative research with novel technologies to assess allo and anti-viral immunity in a functional and molecular perspective in the context of international projects in solid organ transplantation.

Required:

- Bachelor's Degree in Biotechnology/Human Biology and PhD
- Specific/Additional training in Immunology/Molecular Sciences and Bioinformatics
- English (business level)

Desired:

- Experience in: Managing big biological data and Bio statistical skills
- Experience working with animal models

Experience and knowledge:

Required:

- Previous experience working in immunology.
- Knowledge of immunology and Bioinformatics.
- Ability to work with different immunological tools such as: high-dimensional flow cytometry, ELISA, ELISPOT, solid phase assays, cellular cultures, molecular technology assessment.

- Experience designing laboratory experiments
- Ability writing scientific manuscripts

Main responsibilities and duties:

- Design and management of experiments to assess allo and anti-viral immunity
- Generate and analyze big biological data
- Manuscript writing

Labour conditions:

- Full-time position: 40h/week for 3 years.
- Starting date: immediate.
- Temporary Contract: for 3 years.
- Gross annual salary: 31.985,40 euros

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Personal training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program (including dining checks, health insurance, transportation and more).
