

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

## Research Technician

### Neurodegenerative Diseases Research Group

*Our group is looking for a Research Technician for an immediate incorporation. The Technician will contribute to one of the lines of research of the group on the role of the adaptive immune system in Parkinson's disease and will help to establish a new line of research on autism.*

#### JOB DESCRIPTION

##### Education and qualifications:

##### Required:

- FPII degree or Bachelor's Degree in Health/Life Sciences
- Animal experimentation certification

##### Experience and knowledge:

##### Required:

- Experience in basic research lab techniques such as immunohistochemistry/immunofluorescence, western blot and qPCR.
- Experience with animal models.
- Organized and methodical person with high motivation and initiative.

##### Desired:

- Previous experience with neurodegenerative diseases or autoimmune diseases.
- Previous experience with tissue sectioning (cryostat).
