

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Research Technician-Study Coordinator

Neurodegenerative Diseases Research Group

The Neurodegenerative Diseases Neurodegenerative Diseases Research Group at Vall d'Hebron Research Institute is recruiting candidates to apply for a position as a Laboratory technician, Study Coordinator and Data Entry to support translational and clinical research on the field of Parkinson's Disease. The candidate will be involved in the clinical trials carried out at the Parkinson's and Movement Disorders Unit of the Neurology Department at Vall d' Hebron University Hospital and support different lines of research of the group
