

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Research technician Neurovascular Research Laboratory

VHIR's offers a contract to work as a **Research Technician** within the Neurovascular Research Group. Our lab is focused in stroke research from a basic and translational point of view. The group is composed by a young and highly motivated group of researchers: neurologists, biologists, technicians, statisticians, psychologists and nurses. Our work is divided into four lines of research: Biomarkers, Prevention, Neurorepair and Amyloid. This position will give support to a European project (PROOF_H2020PHC2016), in Biomarkers and Neuroprotection line.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree in Neuroscience, Health Sciences or similar (Biomedicine, Biology etc.)
- M.Sc (Master of Science) in Translational Biomedicine Research or similar.

Desired:

- Fluent English

Experience and knowledge:

Required:

- Experience in some Cell & Molecular biology techniques: Immunoassays, western blotting, RT-PCR, cytometry, ELISA, tissue histology, etc.
- Computer skills and experience in statistical analysis using GraphPad and SPSS or similar.
 - Previous experience in a biomedical research laboratory.

- Experience in collection and storage of biological specimens.
- Computer skills and experience in statistical analysis using GraphPad and SPSS or similar.
- Personal skills: well-organized, methodical, proactive and aptitude for teamwork.

Desired:

- Strong background in neurosciences

Main responsibilities and duties:

- Writing reports, statistical analyses and results interpretation.
- Cell & Molecular biology techniques.
- Collection and storage of biological specimens.

Labour conditions:

- Full-time position: 40h/week.
- Starting date: immediate
- Gross annual salary: 22.823,22 euros
- Contract: *permanent linked to project*

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Individual training opportunities.
