

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Robotic & Automation Engineer

Medical and Molecular Imaging Research Group

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence.

The GRIMM (Medical and Molecular Imaging Research Group) is the VHIR research group expert in medical imaging in the areas of Diagnostic Imaging (Radiology) and Nuclear Medicine.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree in Sciences/PhD/Master (Robotic Engineer).
- Specific/Additional training in management.
- Fluency in Spanish and English.

Desired:

- Specific/Additional training in python, VBA, agile methodology.
- Fluency in Catalan.

Experience and knowledge:

Required:

- At least 2 years of experience working in engineering field.
- Knowledge of SCRUM, JIRA.
- Ability to critical-analytical thinking, teamwork.
