

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Data Project Manager

The Diabetes and Metabolism Research Group

The Diabetes and Metabolism Research Group is hiring for a Data Project Manager position to opt for a Research Support Personnel Contract (PERIS Call. SLT028)

The ideal candidate must have a flexible and entrepreneurial temperament. She/he must be able to coordinate and optimize the use of all available resources throughout the life cycle of the projects of the research group to which they will be assigned; be able to support all activities related to research and innovation (projects, transfer, valorisation, dissemination) and support the logistics of continuing education activities.

Profile

- Bachelor's Degree in Health Sciences (i.e. Medicine, Biomedicine, Biology, Biochemistry)

Requirements

- Experience in the development and drafting of projects. In this sense, the tasks to be developed and which will be taken into account in the evaluation of the candidates will be fundamentally related to the drafting of projects, coordination with the different beneficiaries of the project, advice on implementation, preparation and monitoring of budgets and ability to interact with VHIR structure staff (i.e. Projects department, HR, Innovation, Legal).
- Knowledge of data management and analytical skills for the collection and interpretation of information.
- General knowledge of transfer actions and especially in patent management.
- Proficiency in English.

- Proactively identify networks, actions and initiatives that may represent a strategic opportunity for the multiple lines of research of the group.
- Excellent communication skills to collaborate in disseminating the group's research to different audiences.
- Excellent planning, organizational and relational skills
- Ability to work in multidisciplinary teams
- Responsible person with a high degree of involvement within the research group.

Type of contract and remuneration:

- Weekly hours: 30 hours (face-to-face + remote)
- Gross annual salary: According to subsidies for the financing of actions included in the Strategic Plan for research and innovation in health 2022-2027 (ref. BDNS 676673)
- Possibility of incentives based on objectives.
- Contract length: 2.5 years (Linked to project)
- Starting date: as soon as possible

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
