

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Clinical Researcher

Peripheral Nervous System group

The Peripheral Nervous System group is specialized in Neuromuscular diseases (Amyotrophic lateral sclerosis, myasthenia gravis, myopathies and inflammatory neuropathies). The main lines of investigation are: identification of biomarkers in ALS and genetics (Whole exome, Whole genome and RNA sequencing) techniques)

We are involved in many different clinical trials concerning ALS, myasthenia and inflammatory neuropathies

JOB DESCRIPTION

Education and qualifications:

Required:

- Neurologist specialized in neuromuscular diseases

Desired:

- Training in clinical trials
- Knowledge of neurophysiology

Experience and knowledge:

Required:

- At least 1 year of experience working in Neuromuscular diseases after Residence in Neurology

Desired:

- Knowledge of genetics
- Ability to perform electromyographic test
