

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Junior Researcher in Drug Development

Childhood Cancer and Blood Disorders Research Group

The Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital treats around 120 children and adolescents with cancer per year as well as up to 500 new patients with haematological conditions and performs 50 stem cell transplantations. All research is conducted through the Childhood Cancer and Blood Disorders Research Group of VHIR. There are 30 phase 1/2 and 15 phase 3/4 clinical trials ongoing and several patient registries. The candidate will join a very active team of 15 paediatric haematology and oncology consultants, 2 study coordinators, 2 data managers and 2 research nurses, and be involved in the day-to-day conduct of clinical trials and patient registries.

JOB DESCRIPTION

Education and qualifications:

Required:

- Degree in Medicine
- Specialist training in Paediatrics (via MIR or equivalent)

Experience and knowledge:

Required:

- At least 2-year experience in Paediatric Haematology, Oncology and Stem Cell Transplantation
- Experience in Clinical Trials in Paediatric Haematology & Oncology
- Good communication skills and good team player

Desired:

- Good Clinical Practice training

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH
