

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

## Graduated laboratory technician

### Group of Childhood Cancer & Blood Disorders. Laboratory of Neural Tumors.

Pediatric tumors of the nervous system are the most common type of solid tumor in childhood and are the leading cause of cancer deaths in children. Current therapies are limited to combined regimens of radiotherapy, chemotherapy, and surgery. Despite all these therapeutic efforts, almost 50-60% of these patients will not achieve a long-term cure due to disease progression and/or relapse. In addition, conventional treatments usually cause a large number of complications and side effects associated with the treatment, a situation that requires new therapies.

We tackle this unmet clinical need through the development of clinically-relevant preclinical models and testing new therapeutic approaches including -and not limited to- epigenetic drugs, new experimental compounds and immunotherapies among others.

**More information about the group can be found here:**

#### JOB DESCRIPTION

##### Education and qualifications:

##### Required:

- Bachelor's Degree in Biomedical Sciences
- Additional training in cell culture and molecular biology techniques (PCR, western blot)
- Fluency in English (business level)

##### Desired:

- Previous experience in drug development projects.

## Experience and knowledge:

### Required:

- At least 1 years of experience working in cell culture and molecular biology techniques.
- Knowledge of Cancer
- Ability to work independently

### Desired:

- Knowledge of commonly-used software (Office, R2, GraphPad)
- Ability to communicate efficiently.

## Main responsibilities and duties:

- Give support to the laboratory drug development research lines.
- Collaborate with other investigators of the group.
- Analyze results.
- Keep track of laboratory supplies.

## Labour conditions:

- Full-time position: 40h/week.
- Starting date: October 2023
- Gross annual salary 22.823, 22€
- Contract: permanent linked to Project

## What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Individual training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Programme (including dining checks, health insurance, transportation and more)
- Corporate Benefits: platform through which you can obtain significant discounts on travel, culture, technology, gastronomy, sports... among many others.
- Healthy Offering: choose from a variety of wellbeing focused activities to be the healthiest you.

## How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter with the reference "Laboratory Technician" to the following email addresses: [miguel.segura@vhir.org](mailto:miguel.segura@vhir.org) and [seleccio@vhir.org](mailto:seleccio@vhir.org)

**Deadline to apply: 13-10-2023**
