

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

## Lab Technician

### Diabetes and Metabolism Research Group

VHIR offers a position for a Lab Technician within the Diabetes and Metabolism Research Group to participate in the project "Topical (eye drops) administration of sitagliptin: a new strategy for treating retinal neurodegeneration in glaucoma (GlauSit@)" (PDC2021-121638-I00).

#### JOB DESCRIPTION

##### Education and qualifications:

##### Required:

- Laboratory technician or Bachelor's Degree in Sciences/PhD/Master
- Certificate for handling animals for research use

##### Desired:

- Fluency in Catalan, Spanish, English (B2 or equivalent)

##### Experience and knowledge:

##### Required:

- Experience in animal experimentation (mainly mouse handling).
- Experience in molecular biology techniques (histology, WB, immunofluorescence...).

##### Desired:

- At least 2 years of experience working in similar position.
