

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Communication and Dissemination Manager

Rare Anemia Disorders research lab

The University Hospital Vall d'Hebron is highly specialized in rare diseases on a Regional, national and international level with its recent incorporation as full member of 20 of the 24 European Reference Networks (ERN).

ERN-EuroBloodNet, www.eurobloodnet.eu, the ERN dedicated to Rare Hematological Diseases (RHD), currently consists of 96 healthcare-providers from 14 Member States, with important interactions with patient groups covering those conditions. ERN-EuroBloodNet coordination is based at three main hubs: St. Louis Hospital (Paris) especially for the oncological medical direction, ERASME Hospital (Brussels) especially for the non-oncological medical direction, and Vall d'Hebron University Hospital- Vall d'Hebron - Institut de Recerca (Barcelona) for the scientific direction. The ERN-EuroBloodNet coordination hub based in Barcelona is led by Dr Mañú Pereira, head of the Rare Anemia Disorders research lab within the “CANCER Y ENFERMEDADES HEMATOLOGICAS INFANTILES” group.

Our research strategy is focused on the development and validation of innovative methodological approaches for better characterization of patients affected by rare anemia disorders according to their individual features to allow personal risk profiles and personalized medicine.

In this context, we are looking for a responsible Communication and Dissemination Manager who will support the team of the Rare Anemias Disorders Research Line for leading the Communication and Dissemination actions related to ERN-EuroBloodNet. Duties of the Communication and Dissemination Manager will include leading a team to develop engaging content, manage social media presence, coordinate audio-visual production, website management, and ensuring effective communication across all platforms.
