

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Data Project Manager

Department of information Systems & Decision Support (Vall d'Hebron University Hospital – External Strategy VHIR)

VHIR is a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the hospital of Barcelona and the largest of the Catalan Institute of Health (ICS).

We are looking for a **Data Project Manager** with strong leadership and managerial skills to contribute in the implementation phase of an international project. The candidate will collaborate both with the Department of Information Systems & Decision Support Vall d'Hebron University Hospital (HUVH) for the data management, presentation and exploitation and with the international projects units for the financial, legal and other transversal management aspects.

HUVH is pioneer in the country in developing the Value-Based Health Care model, employing systematic and participative methodologies. The development of this model has grown up in the last year in parallel with the collaboration of some European-Funded projects.

JOB DESCRIPTION

Education and qualifications:

Required:

- University Degree or higher degree, preferably in Computer Engineering, Life Science, Data Science or similar.
- Master's degree in: Business Intelligence, Big Data, Data Science or similar.
- Fluency in Catalan, Spanish, English (business level)

Experience and knowledge:

Required:

- At least 3 years of excellent scientific or management experience in European collaborative projects, preferably in the field of health research, data science and management, data modeling and Artificial Intelligence (AI).

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.
