

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Biostatistician

Rare Anemias Disorders Research Line

The University Hospital Vall d'Hebron is highly specialized in rare diseases on a Regional, national and international level with its incorporation as full member of 20 of the 24 European Reference Networks (ERN).

The scientific direction of the ERN-EuroBloodNet, www.eurobloodnet.eu, the ERN dedicated to **Rare Hematological Diseases (RHD)**, is led by Dr Mañú Pereira, head of the Rare Anemia Disorders research lab within the “CANCER Y ENFERMEDADES HEMATOLOGICAS INFANTILES” group.

Our research strategy is focused on the development and validation of innovative methodological approaches for better characterization of patients affected by rare anemia disorders according to their individual features to allow personal risk profiles and personalized medicine.

Within the ERN-EuroBloodNet and in line with the strategy at European level, the team is leading several projects on European patients' registries for rare haematological diseases, aiming at avoiding fragmentation of data by promoting the standards for patient registries' interoperability.

In this context, we are looking for a highly motivated, self-driven and committed Biostatistician who will support the delivery of our projects and :

- Give support in statistic tasks and data base management
- Prepare periodic statistical reports
- Coordinate IT tasks
