

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Communication Technician - Temporary contract for maternity leave (7 months approximately)

Communication Unit

The VHIR Communication Unit is part of the Communication, Corporate Strategy and Citizen Assistance Department of the Vall d'Hebron Barcelona Hospital Campus and its main objective is to raise awareness of the research carried out at Vall d'Hebron, in all its areas and all its forms. On the one hand, it explains to society, through its web page, social media and the media in general, the main scientific advances of its researchers, and the institution's milestones. It does so through press releases and conferences, interviews, videos and communication campaigns, as well as written and audiovisual informative material.

On the other hand, it internally communicates the research, publications and activities of our research personnel to the entire Campus, through internal communiques, the Internet and social media.

It also creates an essential institutional tool that annually audits the scientific production of the Vall d'Hebron Research Institute (VHIR), such as the multimedia version of the report.

The unit contributes to the internationalization of the institution through the production of all the information in English and forging a closer relationship with international media.

Lastly, it organises institutional events, scientific seminars, workshops and the annual conference, but it also carries out divulgation actions in order to bring what the researchers do at the VHIR closer to society. It does so by participating in fairs and organising open-door events and other activities to allow society to get to know us and raise awareness, especially among the young.

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.
