

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Senior Innovation Manager

Innovation Unit

VHIR offers a vacant position for a **Senior Innovation Manager** to join the Innovation team and **provide close support to researchers and clinicians in the development of healthcare innovative solutions**. The Innovation unit mission is to transform excellence in research, and clinical care into new products, services and processes that improve patient experience and population health, and reduce the costs of providing healthcare services.

In recent years, VHIR has developed a **new innovation and business development model** that has enabled to accelerate the translation of research findings into clinical practice. The principles of this model are the foundation of VHIR's approach to innovation and technology transfer: **collaboration, entrepreneurship, and impact**. As a result, in the last years 13 technologies have been licensed, and 11 new spin-offs and start-ups have been created, which have generated more than 60 jobs, raised more than 62M€ investment and over 20M€ in competitive funds, and have a market value of +450M€.

To consolidate public-private relationships, the new VHIR building (to be finished in June 2024) will have 800 m2 exclusively dedicated to create an **Innovation Hub**. This space is designed as a place for co-creation where researchers and companies can work closely together, in a real clinical and academic environment, with the aim of transforming the collaboration model and bringing industry and research even closer together.

The success of VHIR's innovation and business development model has positioned the organization as a leader in biomedical research and a **key contributor to the development of new therapies and technologies that have the potential to improve patient outcomes** and transform healthcare. As VHIR continues to refine and improve its innovation and business development model, it is poised to make even greater contributions to the field of biomedical research and to society as a whole.

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital.
