

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

Data Entry

Clinical Trials Management Unit

The **Clinical Trials Management and Development Unit** is responsible for follow-up the execution of commercial clinical studies at the Vall d'Hebron Campus.

The primary objective of this Unit is to contribute to the consolidation of the Vall d'Hebron University Hospital as an international clinical trial reference centre, through the implementation of a new management model for clinical trials at Vall d'Hebron Campus. A management model that aims to ensure quality in clinical trials that generates opportunities for those researchers on campus, using the latest technology available to treat their patients, and improve their quality of life.

The number of clinical trials has increased in the last year at Vall d'Hebron University Hospital, not only in numbers but also in complexity, that helps patients and relatives to improve life expectancy.

The Clinical Trials Management Unit wants to incorporate to its team a **Data Entry** who will focus on clinical trials from different areas of knowledge.
