

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Study coordinator for Childhood Cancer trials

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence around the world. VHIR offers vacancy/vacant position for a Study Coordinator within the Childhood cancer and Blood Disorder Group, funded by the FORTALECE 2023 program of Instituto de Salud Carlos III.

Desired:

- Experience with study coordination or data management in paediatric clinical trials or paediatric clinical research
- Experience with industry-sponsored trials
- Experience with biological samples processing and management
- Good communication skills and good team player

Main responsibilities and duties:

The Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital treats around 120 children and adolescents with cancer as well as up to 500 new patients with haematological conditions and performs 40 stem cell transplantations per year. All research is conducted through the Translational Research in Child and Adolescent Cancer Group of VHIR. There are more than 60 trials open (early phase/late phase/observational studies). The candidate will join a very active team of 14 paediatric haematology and oncology consultants, 2 study coordinators 2 data managers and 2 research nurses, and be involved in the day-to-day conduct of academic phase clinical trials and patient registries.

- Coordinate phase I and II clinical trial research in paediatric haematology and oncology, trial set up activities, support clinical trial monitors.
- Data entry, data management and query resolution for early phase trials in paediatric haematology and oncology
- Assistance to trial principal investigators (paediatric haematology & oncology consultants) with day-to-day conduct of late-phase trials at the Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital.
- Communication with sponsors.
- Assisting the research team with sample processing for late phase trials.

Labour conditions:

- Full-time position.
- Starting date: immediate
- Gross annual salary: Remuneration will depend on experience and skills. Salary ranges are consistent with our Collective Agreement pay scale.
