

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Project Manager for Internal Strategy Area

VHIR offers a position for a Project Manager to join the Internal Strategy/Scientific Coordination Area to support the implementation and development of the new Scientific Structure, including **Research Areas** (Connected to Hospital Specialities) and **Collaborative Research Spaces (eCOREs)**, in order to work on main health challenges with the aiming to collaborate to solve them, be more competitive both at national and international level, promote collaboration and, above all, have an impact-oriented research, to improve society's well-being.

VHIR is implementing the new Scientific Structure based on **Research Areas** that organise more than 60 **research groups** of the institute, such as Chronic, Prevalent Diseases & Ageing, Brain, Mind and Behaviour, Cancer, Infectious Acute Disorders, Transplantation, Child Health and the Technological Transversal Research groups. The research groups also participate in **Collaborative Research Spaces (eCOREs)** that will work on strategic institutional priorities, such as: Advanced Therapies & Immunomodulation, Precision Medicine: data & imaging, Environmental & Public Health, Rare Diseases and Woman, Health and Gender and Diversity Perspective.

JOB DESCRIPTION

Education and qualifications:

Required:

- Master degree (in Health Sciences preferred but not limited to);
- Previous expertise in biomedical research;
- High organisational skills.
