JOB DESCRIPTION

Education and qualifications:

Required:

- Degree in Nutrition and Dietetics. Master's degree preferred.
- Minimum of 1 year of experience in clinical nutrition.

Experience and knowledge:

Required:

- Experience in clinical nutrition, with specific experience in pediatric oncology highly desirable.
- Strong interpersonal and communication skills, with the ability to effectively interact with pediatric patients and their families in a compassionate and supportive manner.
- Current knowledge of regulatory standards and guidelines governing clinical nutrition practice.

Desired:

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

- Experience working in a pediatric oncology setting, providing specialized nutritional care to children and adolescents with cancer.
- Ability to work collaboratively within a multidisciplinary team environment, demonstrating flexibility, adaptability, and a patient-centered approach.
- Excellent organizational and time management skills, with the ability to prioritize tasks.
- Experience in conducting nutrition research or quality improvement projects related to pediatric oncology nutrition.

Main responsibilities and duties:

The Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital treats around 120 children and adolescents with cancer as well as up to 500 new patients with haematological conditions and performs 40 stem cell transplantations per year. All research is conducted through the Childhood cancer and blood disorders Group of VHIR. There are more than 60 trials open (early phase/late phase/observational studies). The candidate will join a very active team of 14 paediatric haematology and oncology consultants, 2 study coordinators 2 data managers and 2 research nurses.

- Conduct thorough assessments of pediatric oncology patients' nutritional status, considering their medical history, treatment plan, and dietary habits.
- Develop comprehensive, tailored nutrition care plans for each patient.
- Nutritional education and counseling.
- Monitor patients' nutritional status and progress regularly, tracking changes in weight, dietary intake, and biochemical markers. Adjust nutrition interventions as needed based on evolving needs, treatment responses, and clinical outcomes.
- Work collaboratively with oncologists, nurses, social workers, and other members of the healthcare team to ensure coordinated and holistic care for pediatric oncology patients.

Labour conditions:

- Part-time position: 15h/w
- Starting date: immediate
- Gross annual salary: Remuneration will depend on experience and skills. Salary ranges are consistent with our Collective Agreement pay scale.

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

- Technical and scientific activities contract linked to the project activities

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Individual training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program (including dining checks, health insurance, transportation and more)
- Corporate Benefits: platform through which you can obtain significant discounts on travel, culture, technology, gastronomy, sports... among many others.
- Healthy Offering: choose from a variety of wellbeing focused activities to be the healthiest you.
