

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

IT Product Owner

Digital Transformation Area

The Digital Transformation Area has the aim of defining, accompanying and reinforcing the digital transformation at VHIR. The Directorate is made up of the IT, Quality and Processes and Document Management Units. It is a transversal area that defines and leads the strategy for integrating new digital technologies, adapting and updating their processes and infrastructures in order to gain efficiency and accompany the growth of the Institution.

JOB DESCRIPTION

A fantastic job opportunity has arisen to join the Digital Transformation Area as a "IT Product Owner". We are looking for a highly motivated and experienced individual who is willing to start the challenge of working in one of the most important and competitive Research Centres linked to the health sector in Spain/Europe. Reporting to the Head of IT, the successful candidate will be responsible for maximizing the value of the products and the work of the development team. You will serve as the primary liaison between the stakeholders and the development team, ensuring that the team delivers maximum value to the business.

Education and qualifications:

Required:

- Bachelor's degree in Computer Science, related field or relevant work experience.
- Fluent in Catalan, Spanish and English.

Desired:

- Scrum Product Owner (CSPO) certification is highly recommended.

Experience and knowledge:

Required:

- Minimum of 5 years of experience as a Product Owner or similar role.

- Outstanding communication and interpersonal skills, with the ability to effectively collaborate with stakeholders at all levels.
- Excellent organisational and time management skills, with the ability to prioritise and manage multiple tasks simultaneously.
- Strong analytical and problem-solving skills, with a keen attention to detail and a can-do attitude.
- Flexible and adaptable to different dynamics and processes.
- Confidentiality and discretion.

Desired:

- Confident in documenting processes and assisting with various digital transformation projects.

Main responsibilities and duties:

- **Product vision:** Develop and communicate a clear product vision that aligns with business goals and customer needs.
- **Product backlog management:** Prioritise and maintain the product backlog, ensuring that it accurately reflects the priorities of the stakeholders and the business needs.
- **User story definition:** Define detailed user stories and acceptance criteria in collaboration with stakeholders and the development team.
- **Release planning:** Collaborate with the Scrum Master and development team to plan and execute product releases, ensuring that they are delivered on a timely manner and within the budget.
- **Stakeholder management:** Act as primary point of contact for stakeholders, gathering feedback, managing expectations, and ensuring alignment with the product vision.
- **Risk management:** Identify and mitigate risks related to the product delivery, ensuring that potential issues are addressed proactively.
- **Product demos:** Conduct regular product demos to stakeholders, gathering feedback and iterating on the product based on their input.
