

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**.

Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

## Postdoctoral Researcher

### Group of Biomedical Research in Digestive Tract Tumors

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence around the world

We are currently seeking a highly motivated **postdoctoral fellow** to join the Group of Biomedical Research in Digestive Tract Tumors at the Vall d'Hebron Research Institute (<http://bit.ly/vhiringrouplink>), a large multidisciplinary institution, with more than 270 active research projects and over 800 publications in 2017 in all fields of biomedical research. We are located in Barcelona, a large Mediterranean city in northern Spain with many cultural and entertainment possibilities.

The candidate will work on an established research line (<http://bit.ly/1woSHyG>) focusing on the role of the small GTPase RHOA in gastric cancer. The project will involve the use of a variety of cell/molecular biology techniques including in vitro systems, animal models and large tumor collections.

#### JOB DESCRIPTION

##### Education and qualifications:

###### Required:

- Have a PhD degree in the field of biomedical research.

##### Experience and knowledge:

###### Required:

- Have significant experience in the field of cancer research.
- Have at least one original publication as a first author or co-author.

###### Desired:

- Experience working with animal models and postdoctoral experience in high profile international research organization, are desirable.

### Labour conditions:

- Two year full-time position (40h/week),
- Starting 1st March 2019.
- Gross annual salary: 24,500 euros.

### How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter along with the contact of three references to the following email addresses: [molecular.oncology@vhir.org](mailto:molecular.oncology@vhir.org) and [seleccio@vhir.org](mailto:seleccio@vhir.org) REFERENCE: PD2019VH
