

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**. This recognition proves that VHIR endorses the general principles of the **European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (Charter & Code)**. Thus, there are no restrictions of gender, national origin, race, religion, sexual orientation or age and **candidates with disabilities are strongly encouraged to apply.**

## Neuropsychologist and research support

### Research Group on Status Epilepticus and Acute Seizures

The Research Group on Status Epilepticus and Acute Seizures is a multidisciplinary clinical research team that collaborates in the development of new tools and treatments through participation in clinical trials and clinical research projects to improve the prognosis of patients with epilepsy.

The Research Group on Status Epilepticus and Acute Seizures wants to incorporate to its team a neuropsychologist to give support on different research projects of the group.
