

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Clinical trial data entry

Kidney Physiopathology Group

The Pediatric Nephrology Department is part of the University Hospital Vall d'Hebron (VHUH) located in Barcelona, a Tertiary referral public center for Catalunya and many other areas of Spain. The HUVH is integrated by a Women-Children, General, and Trauma-Orthopedics Teaching Hospitals providing a multidisciplinary care involving all pediatric and adult medical and surgical sub-specialties. We also work closely with the Pediatric Urology Service who is accredited as national reference service for complex urologic surgeries in children and adolescents.

Further, we are part of the Kidney Physiopathology Group at the Vall d'Hebrón Research Institute (VHIR) (here more details). Our research is focused in the field of Inherited Tubulopathies (Dent disease, Familial hypomagnesemia with hypercalciuria nephrocalcinosis), and rare kidney diseases. We are also founder members of RenalTube (<http://renaltube.com/en/>), a research network focused on improving diagnosis and knowledge of Primary Tubulopathies. We participate in several clinical trials and academic research projects in the field of pediatric kidney and rare kidney diseases.

The Kidney Physiopathology Group at Vall d'Hebron Research Institute wants to incorporate to its team a Study Coordinator to give support on specific tasks.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor Science degree (Biotechnology, Biology, Biochemist, Pharmacy, Nurse, or other science bachelor degree).
- Training in good clinical practice and clinical trials methodology.
- Computer user level (Office package, mail).

Desired:

- Knowledge on SPSS and other data base.
- Previous experience as data entry,
