

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

Postdoctoral Researcher

Diabetes and Metabolism Department

Our group is looking for candidates to apply to several postdoctoral grants/scholarships. The postdoctoral researcher will work on a project related to the development of new therapeutic strategies for the treatment of fatty liver disease (NAFLD and NASH) under the supervision of Dr. David M Selva.

JOB DESCRIPTION

Education and qualifications:

Required:

- PhD in Biology, Biochemistry, Pharmacology or related discipline (Formació Complementaria)

Experience and knowledge:

- Good communication skills.
- Animal Experimentation title.
- Experience in molecular and cellular techniques

Main responsibilities and duties:

- Participate in the development of new therapies based on SHBG mimetic peptides to prevent and treat fatty liver disease performing in vitro (different liver cell lines) and in vivo (several mouse models) experiments...
