

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

Postdoctoral Researcher

BIOMEDICAL RESEARCH IN UROLOGY (Oncology)

The Research Unit in Urology is a multidisciplinary group formed by clinical specialists in Urology, Oncology, and Pathology and Basic Researchers with extensive experience in the biology of prostate, renal, and bladder cancer. The collaboration between clinicians and basic researchers allows for an easier identification of unresolved issues in the current treatments/management of patients with urologic diseases. This approach permits the application of strategies that starting from specific clinical aspects study the molecular mechanisms at the base of disease progression. A deeper understanding of the pathways involved in the progression of these cancers is necessary to advance in the development of preventive and curative treatment strategies.

Contract linked to the project "TARTAGLIA: Red Federada de Inteligencia Artificial para acelerar la Investigación Sanitaria". Funding by Ministerio de Asuntos Económicos y Transformación Digital

JOB DESCRIPTION

Education and qualifications:

Required:

- PhD in the area of biomedical sciences

Experience and knowledge:

Required:

- Have significant experience in the field of cancer research.
- Have at least one original publication as a first author in a peer reviewed journal.
- Team-work as well as independence abilities

As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

Desired:

- Predoctoral/postdoctoral experience in international research organizations
- Student direction (PhD, Master, BSc)
- Good communication skills and fluency in written and spoken English
- Experience working with AI
- Strong sense of responsibility, organization, initiative and self-motivation.

Main responsibilities and duties:

- Management the project objectives and monitoring
- Coordinate a work package
- Capability of designing and analyzing experimental procedures in order to fulfill the scientific aims of the project

Labour conditions:

- Full-time position: 40h/week.
- Starting date: as soon as possible
- Gross annual salary: 25 000 – 35 000 euros
- Contract: permanent linked to project

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Personal training opportunities.
- Flexible working hours.
- 23 days of holidays + 9 personal days.
- Flexible Remuneration Program (including dining checks, health insurance, transportation and more).

How to apply:

Applicants should submit a full Curriculum Vitae and a cover letter with the reference "TARTAGLIA: UROLOGY-POSTDOC" to the following email addresses: borja.martinez@vhir.org and seleccio@vhir.org
