

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

## CLINICAL AND PRECLINICAL RESEARCH COORDINATOR

### GRUP DE RECERCA EN IMATGE MÈDICA MOLECULAR

VHIR offers a vacancy for a Clinical Research Coordinator for the Molecular Medical Research Group, with a special focus on Nuclear Medicine.

This group responds to an evolution of a long history of scientific activity developed by professionals in Radiology and Nuclear Medicine at Vall d'Hebron University Hospital. The experience gained in research through the different diagnostic techniques and therapeutic modalities, especially radionuclide therapy, and focused on competitive clinical trials and research projects, to advance the deepening of the molecular bases and the development of new lines of research, in special interest with teragnostic objectives.

#### JOB DESCRIPTION

##### Education and qualifications:

##### Required:

- Degree or Grade in Sciences.
- Specific training in Biomedical Sciences

##### Desired:

- Fluency in Catalan, Spanish, English (business level)

##### Experience and knowledge:

##### Required:

- At least 2 years of experience working in Nuclear Medicine coordinator research.
- Ability to data management on clinical trials.
