

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

CLINICAL TRIALS TREATING NEUROLOGIST

Neuroimmunology research group - Multiple Sclerosis (MS)

VHIR offers vacancy position for a clinical research coordinator within the Neuroimmunology research group - Multiple Sclerosis (MS) Centre of Catalonia

The main research objectives of the Clinical Neuroimmunology Group are to attain a greater understanding of the pathogenic mechanisms and develop new and more effective therapies, aiming to improve the quality of life of multiple sclerosis (MS) patients. Other interests in research are: disease susceptibility; diagnostic and prognostic markers in MS; study of the response to treatment in MS patients; clinical and radiological study of primary-progressive MS; epidemiology of MS; and patient-oriented outcomes.

JOB DESCRIPTION

Education and qualifications:

Required:

- Neurology certification
- Medical license

Desired:

- Ability to work autonomously and in team with different professionals in the centre (Nurses, study coordinators, etc)
- Problem solving
- Proactive attitude

Experience and knowledge:

- Expertise in Multiple Sclerosis
- Experience in clinical research and clinical trials
