

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Study Coordinator in ICU

Shock, Organ Dysfunction and Resuscitation Group

The **Shock, Organ Dysfunction and Resuscitation** Group is an integral and innovative research in the areas of shock, acute respiratory failure, acute renal failure, organ dysfunction, resuscitation and monitoring the patient in critical condition. In addition, the research group is particularly interested in applying artificial intelligence as a tool to achieve innovative solutions to critical ill patients.

The **Shock, Organ Dysfunction and Resuscitation** at Vall d'Hebron Hospital wants to incorporate to its team a research Study Coordinator for Clinical Trials in Coronavirus to give support on specific tasks..

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor Science degree (Biotechnology, Biology, Biochemist, Pharmacy, Nurse, or other science bachelor degree).
