

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Support Technician Veterinary

Experimental Surgery Unit

VHIR offers a veterinary position for the Experimental Surgery Unit (ESU). ESU's specialties are: preclinical animal models (pig, sheep and rabbit) for research and teaching purposes, anesthesia, analgesia and resuscitation protocols and pre and post-operative animal care and welfare. It offers integral preclinical imaging services (fluoroscopy, ultrasound), ethics committee assistance, has an ISO 9001:2015 quality management system certification and in process Certification AAALAC - Association for Assessment and Accreditation of Laboratory Animal Care. More information about ESU services can be found in the VHIR webpage.

This vacancy is funded by the European Union-NextGenerationEU for a period of two years. The project establishes the following requirements in terms of the profile of the candidates:

- The candidate must be between 16 and 29 years old.
- The candidate must be unemployed and registered as a job seeker (Sistema d'Ocupació de Catalunya) at the time of recruitment.
- The candidate must not have carried out any type of research activity at VHIR in the 6 months immediately prior to the start of the contract.

JOB DESCRIPTION

Education and qualifications:

Required:

- Degree in veterinary medicine.
- Deep knowledge of the regulation, law and ethical aspects related to the animal experimentation.
- Quality system management.
