

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Clinical Fellow for Childhood Cancer trials

Childhood Cancer & Blood Disorders

VHIR offers a vacant position for a Clinical Trials Fellow within the Childhood Cancer & Blood Disorders Group

JOB DESCRIPTION

Education and qualifications:

- Degree in Medicine
- Specialist training in Paediatrics (via MIR or equivalent)

Experience and knowledge:

Required:

- At least 1-year experience in Paediatric Haematology, Oncology and Stem Cell Transplantation (during or post-residency)

Desirable:

- Training in biomedical research, good clinical practice, stem cell transplantation, palliative care, advanced life support
- Experience in Clinical Trials in Paediatric Haematology & Oncology
- Experience in Research in Paediatrics
- Good communication skills and good team player
- Knowledge of medical English

As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Main responsibilities and duties:

The Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital treats around 120 children and adolescents with cancer per year as well as up to 500 new patients with haematological conditions and performs 50 stem cell transplantations. The unit is part of the European Innovative Therapies for Children with Cancer (ITCC) consortium and has an ambitious clinical research program including early and late phase trials, a personalised medicine programme and multiple lines of research in stem cell transplant, sarcomas, neuroblastoma, CNS tumours and non-malignant haematology. All research is conducted through the Translational Research in Child and Adolescent Cancer Group of VHIR. There are 30 early phase and 18 late phase clinical trials ongoing. The candidate will join a very active team of 14 paediatric haematology and oncology consultants, 2 study coordinators, 2 data managers and 1 research nurse, and be involved in the day-to-day conduct of late phase clinical trials & patient registries

- Participation in recruitment and trial-related activities of patients enrolled in late phase clinical trials & registries (Haematology, Oncology & Stem Cell Transplant).
- Assistance to trial principal investigators (paediatric haematology & oncology consultants) with day-to-day conduct of late-phase trials & registries at the Paediatric Haematology and Oncology Division of Vall d'Hebron Hospital

Labour conditions:

- Part-time position 70% at VHIR. Option to join the hospital's clinical team to participate on the Paediatric Haematology and Oncology on call rota (to be discussed with applicants during the interview).
- Start: As soon as possible
- Permanent contract
- Gross annual salary [For the 70% position-28h/w]: 19.229,34 €

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital.
