

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.**

## Research Study Project Manager

### Shock, Organic Dysfunction and Resuscitation Research Group (SODIR)

VHIR offers a vacant position for a Project Manager to join the Shock, Organic Dysfunction and Resuscitation Research Group (SODIR) research group. The goal of the SODIR is comprehensive, innovative research into the areas of shock, acute respiratory failure, acute kidney failure, organic dysfunction, resuscitation and critical patient monitoring. In addition, the research group has a special interest in applying artificial intelligence as an instrument to find innovative solutions for critical patients.

More information about the research group can be found [here](#).

#### JOB DESCRIPTION

##### Education and qualifications:

###### Required:

- Bachelor Science degree (Biotechnology, Biology, Biochemist, Pharmacy, Nurse, or any other life sciences).
- Good level of Catalan, Spanish and English both written and spoken
- Organized and methodical
- Results-oriented with great initiative
- Ability to work in a team and to meet deadlines in a fast-paced environment
- Excellent communication and relational skills

##### Experience and knowledge:

###### Required:

- Minimum of 1 year of experience managing projects.
- Proven knowledge of the biomedical research environments.

###### Desired:

- Experience working in Intensive Care Unit and/or hospital environment

##### Main responsibilities and duties:

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.
