

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission in **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, nationality, religion, age, disability or race.

Laboratory technician

Biochemistry Research Group

VHIR's offers a contract to work as a Laboratory technician in the Laboratory of Cell Signaling and Cancer Progression within the Biochemistry Research Group.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree in Biology, Biochemistry, Biotechnology, Chemistry.

Desired:

- Fluent English language (B2 or equivalent).

Experience and knowledge:

Required:

- Strong background in cancer biology.
- A degree of independence and team-work abilities.
- Experience in similar position
- Experience in molecular & cellular biology techniques, including computer skills and Database search, statistical analyses (GraphPad & SPSS or similar), Genotyping determination, RNA analyses (sequencing, RT-PCR), cell culture, Western Blotting, immunofluorescence, cytometry collection & storage of biological specimens
